

"Joyce has been incredible to work with. She really met us where we were and brought expertise, knowledge, and energy to helping us build the practice of DiSC."

~**JONATHAN KING**

Director of Talent and Development, Fearless (fearless.tech)

"Mandatory trainings always come with the expectation of being a dreaded task. This training was so helpful, I appreciate the opportunity to learn and have it presented in a way that I could immediately shift my thinking in daily interactions and how others might view a situation differently."

~**MERIDIAN INTERNATIONAL**

Washington, DC

"Just learning about DiSC management was an experience in and of itself. But some insights were learning my style of communication, and areas of weakness. Especially with my areas of weakness - knowing those will help me be much better manager and person. I need to learn how to have difficult conversations in a way that is productive and helpful to the people I supervise."

~**BREAD FOR THE CITY**
